Auto Race Day

by Shelly Hazard

Last Saturday, the 54th annual Millersville Auto Race was held with great success. The weather was beautiful and warm, a perfect day for a race. There were some very tense moments during the race, including a crash that almost involved half the field. Fortunately, no one was seriously hurt and the race continued. The race ended with the bystanders on their feet screaming as the cars went roaring past - there was almost a dead heat for first place between the top four contenders. Determine the number of each winning car, the name of each driver, the name of the sponsoring company for each car, and where each placed at the finish line.

1. Ned, whose last name wasn't Fleet, was in fourth place. Car #73 was driven by Mr. Backer.
2. The first place winner drove car #57 but he wasn't sponsored by Firestone.
3. Dick Charger didn't take third place.
4. The driver in car #29 came in second place. Mr. Woods, whose first name wasn't Ned, was sponsored by Napa.
5. Goodyear sponsored the first place winner, which wasn't Race.
6. The driver sponsored by Valvoline had a last name of Fleet. Walt, whose last name wasn't Woods, drove car #82.

Car #	First Name	Last Name	Sponsor	Place
