and Table of Results

One day, five couples took their children to the Millersville High Flying amusement park for a day of fun in the sun. While each couple had only one child, they were good friends who often traveled together so the children got along well together. Everyone enjoyed the day tremendously, though each child at one time or another managed to get lost for a time. Determine the full name of each couple, the first name of each couple's child (each child's last name is the same as their parent's last name), and where each lost child was found.

1. Tom was George's son. Mary's last name was Smith. Ann's mother wasn't Sally.
2. Jane's last name wasn't Bartlett. Kim Walker wasn't married to Michael.
3. Stan's last name wasn't Smith. John Charming wasn't found at the flume. Susie's father wasn't Bill. Tom's last name wasn't Walker.
4. Michelle, who wasn't married to Michael, found her daughter at the carousel.
5. Sally Jackson didn't find her son at the teacups. When she looked by the flume, she found Bill's child.
6. Al and his wife Linda didn't find their child near the Ferris wheel. Michael's son was found near the roller coaster.
