## Ventriloquist Act

by Shelly Hazard

A popular ventriloquist comedy act was in town last week. The show was fantastic and ran for four days during the week. The ventriloquist was very good and he used a variety of unique puppets that truly came alive while he talked with them. While he used a variety of puppets during each show, each night featured a routine with one puppet in particular and each featured puppet involved only one topic. Determine the nights that the show ran, the name of each featured puppet and what topic each talked about, and the time the show started each night.

1. The show on Monday night started at 7:00pm, but Elliot didn't appear in it. Larry didn't talk about religion.
2. Jacob, who didn't talk about family, appeared in a show that started five minutes later than the show featuring the puppet who talked about politics.
3. The puppet in Friday's show talked about his family. Wednesday's show didn't start at 7:10pm.
4. Elliot didn't appear in Thursday's show.
5. Francis appeared in the show on Wednesday night, but he didn't discuss politics.
6. The show that started at 7:20pm featured the puppet who talked about marriage.
