

### **Your traveling**

If you still didn't provide the organizers with your exact traveling time (including flight numbers), please as soon as such information is available pass it to the organizers. The organizers would be unhappy to see you waiting anytime longer at the airport. In order to do their job of the minibuses' renting in time they have to know your arrival and departure time. If you would like to stay for a few days more in Budapest, the organizers would be pleased if they can take you from any hotel in Budapest to Eger (or back).

### **Special meal**

Please let the organizers know if you need a special food (without milk or flour, etc.) or if you have any meal allergy. Please let them know and the chef of the hotel will make a special food on your request. Vegetarian food will be provided every time without special request, but organizers are wondering how many participants prefer to have it.

### **Payment**

Please let the organizers know do you need an invoice about the registration fee - before the event. It can be sent by fax, by e-mail or by postal mail. Also, let them know how do you want to send the fee, e. g. bank transfer. For those, who already provided the required information, the invoices will be posted by the end of August.

### **Book about the event**

The organizers are preparing a small book about the event as a memorable for the participants. In this book they'd like to introduce all the participants (puzzlers, team captains, guests, organizers) with a picture and in a few sentences. To help their work EVERYONE (!) is kindly asked to send in a good quality photo (in any electronic format) and some basic information in English (including your command of a foreign language, e-mail address, if you want to publish it) about him/herself. Please, take a look at the sample [<http://www.puzzles.com/PuzzleClub/14WPC/AboutGyorgyIstvan.htm>]. It's about György István - the president of the Hungarian Puzzlers' Association and the chief organizer of the 14th WPC. This book can not be successful without your cooperation (e.g. if it is published with half of the teams, and with only a few photos). So let's help the organizers to make a memorable present for everyone, including YOURSELF!

Our special thanks to György István for the materials provided.
