

Nine roses are planted in the garden as a perfect circle. If you find this pattern to be quite tedious, here are three problems for you how to rearrange the roses in the garden.

1. Plant the nine roses so that to create EIGHT rows with three roses in each row.
2. Plant the nine roses so that to create NINE rows with three roses in each row.
3. Plant the nine roses so that to create TEN rows with three roses in each row.

Rose Garden 3

Solution

Home / Puzzle Playground / Puzzles / Pencil 'n' Paper /

All solutions are shown in the respective diagrams.
