

There are 3 cups and 3 objects - a coin, a bean and a shell.

- 1) To the left of the red cup is the green cup.
 - 2) To the left of the bean is the coin.
 - 3) To the right of the shell is the blue cup.
 - 4) To the right of the blue cup is the bean.
- In which cup is the coin?

The coin is in the blue cup. Having it in that cup all four clues of the problem are true.
