Circus! Circus!

by Shelly Hazard

March, 2004

Print 'n' Play Text
and Table of Results

The circus is in town! Four families got tickets for a day of fun under the big top. Each family brought a different number of children and each family had a different favorite act of the day. Determine the full name of each couple, how many children each had, and what each family's favorite act was.

1. Sid and his wife only had one child. The Mann couple loved the elephants best.
2. Al, whose wife wasn't named Rachel, didn't like the elephants. The family who loved the dancing dogs had four children.
3. Nancy First didn't bring two children. Larry didn't like the trapeze artists.
4. Larry, who wasn't married to Lucy, didn't have a last name of West.
5. The family who loved the clowns brought three children.
6. From fewest to most children, the families are represented by Linda, elephants, Tom, and Mr. and Mrs. Love.
