and Table of Results

Four friends participated in July's day camp program this summer. Their parents would drop them off at the lakefront each morning and pick them up at suppertime each evening. The morning activity was a water sport of their choice and then the afternoon activity was a different non-water sport of their choice. As it happened, the friends all chose different activities during the day, though they still saw each other during lunch. Determine the full name of each friend, the water sport each chose to participate in, and the afternoon activity each chose.

1. Mike loved kayaking. The friend whose last name was Heart loved tennis.
2. Harry didn't play tennis. Sara didn't like archery. Ms. White didn't swim.
3. Mr. Mann didn't participate in the pottery class.
4. The person who went canoeing also participated in the painting session.
5. Mike didn't play tennis. Harry's last name wasn't Smith.
6. Sara, whose last name wasn't White, loved to sail.

First Name	Last Name	Water Sport	Afternoon Activity
